THE NEW ECT APP

- ✓ Get our service notifications
- ✓ Check Traffic Indicator per block group
- ✓ Monitor the latest Object Status
- ✓ Search Container Status
- ✓ Receive push notifications

You can recognize the new ECT app with **this app icon**

Scan the **QR code** to download the app

What are the features?

The new app offers the features you are used to, such as news and service notifications. The Traffic indicator per block group and the Object Status will return as well. New in the app is the Container Status to check whether a container is expected, present or departed.

The Traffic Indicator, Object Status and Container Status are only accessible with a MyTerminal account. MyTerminal is the online platform of ECT with operation information.

HOW TO DOWNLOAD THE APP & LOG IN

Step 1

Search for ECT app in the App Store and Google Play and download the app

Step 2

Login with your MyTerminal account

Step 3

No account yet? Complete the registration steps and keep the Chamber of Commerce number of your company ready

Step 4

When you see the notification that your Chamber of Commerce number is already registered, contact the MyTerminal Administrator of your company to be invited to MyTerminal or send an email to myterminal@ect.nl.

Why an improved app?

More user friendly, extra functionality and according to all current security requirements for data exchange, the new ECT app is ready for the future.

The existing ECT app will be completely replaced and will be offline as of January 1, 2022.
